

## Thinking of taking out a new insurance policy?

Find out what FSCS protection is available by asking your provider these questions:

- Does FSCS protect your business? 1.
- How much of my money is protected? 2.
- **3.** Which of your products are protected?
- 4. Am I still protected if I buy an insurance package, rather than an individual product?
- What would happen to my policy if something 5. happened to your business?
- What happens if your firm fails and I have an 6. accident? Will I be paid out?
